

**#FLTIGEXT
FLINT IGNITOR EXTENSION**

DESCRIPTION

- 36" Exothermic Flint Gun Extension with Flint Gun.

FEATURES

- Welded Steel Construction.
- Zinc Ultra-seal finish for superior corrosion resistance.
- Easy on and off system for replacing the flint gun, Part # FLTIG.
- Approximate weight of 2.1 pounds.

APPLICATION

- Allows the installer to be approximately 30" from the mold ignition area.
- Allows installers to ignite the weld metal from grade level when exothermic connections are being made in narrow trenches.
