

GRDWL
4-1/2" x 1/4" x 7/8" Grinding Wheel

DESCRIPTION

- Grinding wheel for use with commercially available grinders for purpose of cleaning surfaces prior to exothermic welding.

APPLICATION

- This wheel was specifically chosen for rail applications due to its reduced vibration, lower potential to gouge and resistance to leaving any residual material on the rail which would impact bond integrity.
- Suitable for stainless steel, mild steel, brass, and aluminum

STANDARDS

- Not applicable
