## **Pricing Adjustment Announcement**

To our Valued Harger Customers,

Thank you for your partnership and continued support. Our team is committed to controlling costs while improving operational efficiencies and productivity. Harger strives to provide the highest quality solutions and customer service, alongside the shortest lead times possible. We have continued to see increases in labor, logistics, utilities, economic pressures, inflation, as well as raw material prices driving costs up.

As a result, we are announcing a price adjustment effective January 1<sup>st</sup>, 2026. The adjustment will average approximately 6% across all product lines, with some products being above this level and some being below.

We will accept all orders at current pricing through 12/31/25 and honor quotes up to 30 days after initial quote with all quotes expiring on 1/31/26.

All pricing will be updated in the Harger Sales Portal for applicable parts.

We at Harger look forward to continuing to be your trusted partner for all your lightning protection and grounding needs. Please feel free to contact us if you need any additional support during this transition.

Best regards,

**Adam Cash**  
Marketing Manager, Harger
