

| Part No.    | Approx. Wt. |
|-------------|-------------|
| ULTRAFILL25 | 25 lbs.     |
| ULTRAFILL   | 50 lbs.     |

## Ultrafill Features & Benefits

| Features                         | Benefits                                                                    |
|----------------------------------|-----------------------------------------------------------------------------|
| 98.6% Pure Carbon                | Environmentally friendly, no corrosive effect from sulfates                 |
| No Bentonite or Concrete Fillers | Will not shrink away from electrode as does ones that have these fillers    |
| Lowest in Resistivity            | Provides the best conductivity as compared to other products                |
| No Mixing Necessary              | Easier to install, no mix, no mess; doesn't need water to make it effective |
