## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### SECTION 1: Identification

#### 1.1 Product identifier

Trade name

Ultra Shot and NUWTube Weld Metal

Alternative name(s)

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses

Industrial use

Welding and soldering product

#### 1.3 Details of the supplier of the safety data sheet

Harger

301 Ziegler Drive

Grayslake, IL 60030

T 847-548-8700

#### 1.4 Emergency telephone number

No Additional Information Available

Emergency information service

### SECTION 2: Hazard(s) identification

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

| Section | Hazard class                      | Category | Hazard class and category | Hazard statement |
|---------|-----------------------------------|----------|---------------------------|------------------|
| A.10    | acute toxicity (oral)             | 4        | Acute Tox. 4              | H302             |
| A.11    | acute toxicity (inhal.)           | 4        | Acute Tox. 4              | H332             |
| A.3     | serious eye damage/eye irritation | 1        | Eye Dam. 1                | H318             |

| Code    | Supplemental hazard information                                                                                |
|---------|----------------------------------------------------------------------------------------------------------------|
| HNOC002 | may be harmful in contact with skin (GHS category 5: acutely toxic - dermal)                                   |
| HNOC008 | very toxic to aquatic life with long lasting effects (GHS category 1: aquatic toxicity - acute and/or chronic) |

For full text of abbreviations: see SECTION 16.

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- signal word

Danger

- pictograms

GHS05, GHS07

- hazard statements

H302+H332

Harmful if swallowed or if inhaled.

H318

Causes serious eye damage.

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### - precautionary statements

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P261           | Avoid breathing dust/fume/gas/mist/vapors/spray.                                                                                 |
| P264           | Wash hands thoroughly after handling.                                                                                            |
| P270           | Do not eat, drink or smoke when using this product.                                                                              |
| P271           | Use only outdoors or in a well-ventilated area.                                                                                  |
| P280           | Wear protective gloves/eye protection/face protection.                                                                           |
| P304+P340      | If inhaled: Remove person to fresh air and keep comfortable for breathing.                                                       |
| P305+P351+P338 | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310           | Immediately call a poison center/doctor.                                                                                         |
| P330           | Rinse mouth.                                                                                                                     |
| P501           | Dispose of contents/container in accordance with local/regional/national/international regulations.                              |

### - hazardous ingredients for labelling

Contains: dicopper oxide; aluminium powder (stabilised).

## 2.3 Other hazards

There is no additional information.

### Hazards not otherwise classified

May be harmful in contact with skin (GHS category 5: acutely toxic - dermal).

Very toxic to aquatic life with long lasting effects (GHS category 1: aquatic toxicity - acute and/or chronic).

### Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

Not relevant (mixture)

### 3.2 Mixtures

#### Notes

T(a): This substance is marketed in a form which has the physical properties as indicated

### Remarks

For full text of H-phrases: see SECTION 16. All the percentages given are percentages by weight unless stated otherwise.

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### SECTION 4: First-aid measures

#### 4.1 Description of first-aid measures

##### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

##### Following inhalation

Provide fresh air. If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions.

##### Following skin contact

Brush off loose particles from skin. Rinse skin with water/shower.

##### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 15 minutes, holding the eyelids apart.

##### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell.

#### 4.2 Most important symptoms and effects, both acute and delayed

Welding fumes: headaches and dizziness may occur. Cough, pain, choking, and breathing difficulties. Nausea. Varying degrees of pulmonary injury.

#### 4.3 Indication of any immediate medical attention and special treatment needed

For specialist advice physicians should contact the poison centre.

### SECTION 5: Fire-fighting measures

#### 5.1 Extinguishing media

##### Suitable extinguishing media

D-Powder; Sand

##### Unsuitable extinguishing media

Water. Foam.

#### 5.2 Special hazards arising from the substance or mixture

Deposited combustible dust has considerable explosion potential.

##### Hazardous combustion products

During fire hazardous fumes/smoke could be produced.

#### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

##### Special protective equipment for firefighters

Self-contained breathing apparatus (SCBA). Standard protective clothing for firefighters.

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

---

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety. Ventilate affected area. Control of dust.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases. Wear personal protective equipment/face protection.

#### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Do not allow firefighting water to enter drains or water courses.

#### 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains. Take up mechanically. Avoid dust formation.

Advice on how to clean up a spill

Take up mechanically.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Recommendations

- measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Take precautionary measures against static discharge. Use only in well-ventilated areas.

- specific notes/details

Dust deposits may accumulate on all deposition surfaces in a technical room.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

#### 7.2 Conditions for safe storage, including any incompatibilities

Managing of associated risks

- explosive atmospheres

Removal of dust deposits.

- flammability hazards

Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge.

- incompatible substances or mixtures

Observe compatible storage of chemicals. Keep away from alkalis, oxidising substances, acids.

Control of the effects

Protect against external exposure, such as

High temperatures. UV-radiation/sunlight. Static discharges. Moisture.

Consideration of other advice

Store in a well-ventilated place. Keep container tightly closed. Do not use product if exposed to moisture (discard product).

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### - ventilation requirements

Keep any substance that emits harmful vapors or gases in a place that allows these to be permanently extracted. Use local and general ventilation.

### - packaging compatibilities

Keep only in original container.

## 7.3 Specific end use(s)

There is no additional information.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

#### National limit values

| Occupational exposure limit values (Workplace Exposure Limits) |                                              |           |            |           |                          |            |                           |                 |                  |

### 8.2 Exposure controls

#### Appropriate engineering controls

Handling in enclosed plants. General ventilation. Use local exhaust ventilation: exhaust ventilation welding fumes.

#### Individual protection measures (personal protective equipment)

##### Eye/face protection

Use safety goggle with side protection

##### Skin protection

Suitable protective equipment.

##### - hand protection

In the case of wanting to use the gloves again, clean them before taking off and air them well.

Use heat resistant gloves when handling molten product. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

##### - type of material

Nitrile rubber

##### - material thickness

Use gloves with a minimum material thickness:  $\geq 0,38$  mm.

##### - other protection measures

Gauntlets.

#### Respiratory protection

In case of inadequate ventilation wear respiratory protection: dustiness, welding fumes.

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### Environmental exposure controls

Take appropriate precautions to avoid uncontrolled release into the environment. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

|                |                          |
|----------------|--------------------------|
| Physical state | solid (powder, granular) |
| Color          | dark grey                |
| Particle       | no data available        |
| Odor           | characteristic           |

#### Other safety parameters

|                                         |                                                                                    |
|-----------------------------------------|------------------------------------------------------------------------------------|
| pH (value)                              | not applicable                                                                     |

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

|                      |      |
|----------------------|------|
| Explosive properties | none |
| Oxidizing properties | none |

### 9.2 Other information

There is no additional information.

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material is not reactive under normal ambient conditions.

### 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

Keep away from heat.

Hints to prevent fire or explosion

The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.

### 10.5 Incompatible materials

Oxidizers. Acids. Alkalis.

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

Acute toxicity

Harmful if swallowed. Harmful if inhaled.

- acute toxicity estimate (ATE)

| Exposure route        | ATE          |
|-----------------------|--------------|
| Oral                  | 1,861 mg/kg  |
| Inhalation: dust/mist | 1.72 mg/l/4h |

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### - acute toxicity of components of the mixture

Acute toxicity estimate (ATE) of components of the mixture

| Name of substance             | CAS No    | Exposure route        | ATE            |
|-------------------------------|-----------|-----------------------|----------------|
| dicopper oxide                | 1317-39-1 | oral                  | 1,340 mg/kg    |
| dicopper oxide                | 1317-39-1 | inhalation: dust/mist | 1.5 mg/l/4h    |
| aluminium powder (stabilised) | 7429-90-5 | inhalation: dust/mist | >0.888 mg/l/4h |

Acute toxicity of components of the mixture

| Name of substance             | CAS No                 | Exposure route        | Endpoint | Value                        | Species |
|-------------------------------|------------------------|-----------------------|----------|------------------------------|---------|
| dicopper oxide                | 1317-39-1              | oral                  | LD50     | 1,340 mg/kg                  | rat     |
| dicopper oxide                | 1317-39-1              | dermal                | LD50     | >2,000 mg/kg                 | rat     |
| aluminium powder (stabilised) | 7429-90-5              | oral                  | LD50     | >15,900 mg/kg                | rat     |
| aluminium powder (stabilised) | 7429-90-5              | inhalation: dust/mist | LC50     | >0.888 mg/l/4h               | rat     |
| copper(II) oxide              | 1317-38-0<br>1344-70-3 | oral                  | LD50     | >2,500 mg/kg                 | rat     |
| copper(II) oxide              | 1317-38-0<br>1344-70-3 | dermal                | LD50     | >2,000 mg/kg                 | rat     |
| Calcium Fluoride              | 7789-75-5              | inhalation: dust/mist | LC50     | >5,070 mg/m <sup>3</sup> /4h | rat     |

### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

### Serious eye damage/eye irritation

Causes serious eye damage.

### Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

### Carcinogenicity

Shall not be classified as carcinogenic.

### Reproductive toxicity

Shall not be classified as a reproductive toxicant.

### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

### Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

### SECTION 12: Ecological information

#### 12.1 Toxicity

Very toxic to aquatic life with long lasting effects.

| Aquatic toxicity (acute) of components of the mixture |                        |          |            |                       |               |
|-------------------------------------------------------|------------------------|----------|------------|-----------------------|---------------|
| Name of substance                                     | CAS No                 | Endpoint | Value      | Species               | Exposure time |
| dicopper oxide                                        | 1317-39-1              | LC50     | 193 µg/l   | fish                  | 96 h          |
| granulated copper                                     | 7440-50-8              | LC50     | 193 µg/l   | fish                  | 96 h          |
| copper(II) oxide                                      | 1317-38-0<br>1344-70-3 | LC50     | 193 µg/l   | fish                  | 96 h          |
| Calcium Fluoride                                      | 7789-75-5              | EC50     | 48 mg/l    | aquatic invertebrates | 96 h          |
| Calcium Fluoride                                      | 7789-75-5              | NOEC     | 170.5 mg/l | microorganisms        | 48 h          |

  

| Aquatic toxicity (chronic) of components of the mixture |           |          |           |                |               |
|---------------------------------------------------------|-----------|----------|-----------|----------------|---------------|
| Name of substance                                       | CAS No    | Endpoint | Value     | Species        | Exposure time |
| granulated copper                                       | 7440-50-8 | NOEC     | 11.4 µg/l | fish           | 45 d          |
| Calcium Fluoride                                        | 7789-75-5 | NOEC     | 14.6 mg/l | microorganisms | 20 h          |

#### 12.2 Persistence and degradability

Data are not available.

#### 12.3 Bioaccumulative potential

Data are not available.

#### 12.4 Mobility in soil

Data are not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Endocrine disrupting properties

None of the ingredients are listed.

#### 12.7 Other adverse effects

Data are not available.

### SECTION 13: Disposal considerations

#### 13.1 Waste treatment methods

Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment.

Waste treatment of containers/packages

Only packagings which are approved (e.g. acc. to DOT) may be used. Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself. Inorganic wastes containing dangerous substances.

#### Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

Version number: 7.0

Revision: 2022-03-09

### SECTION 14: Transport information

#### 14.1 UN number

|           |         |
|-----------|---------|
| DOT       | UN 3077 |
| IMDG-Code | UN 3077 |
| ICAO-TI   | UN 3077 |

#### 14.2 UN proper shipping name

|                                        |                                                    |
|----------------------------------------|----------------------------------------------------|
| DOT                                    | Environmentally hazardous substance, solid, n.o.s. |
| IMDG-Code                              | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. |
| ICAO-TI                                | Environmentally hazardous substance, solid, n.o.s. |
| Technical name (Hazardous ingredients) | dicopper oxide, granulated copper                  |

#### 14.3 Transport hazard class(es)

|           |   |
|-----------|---|
| DOT       | 9 |
| IMDG-Code | 9 |
| ICAO-TI   | 9 |

#### 14.4 Packing group

|           |     |
|-----------|-----|
| DOT       | III |
| IMDG-Code | III |
| ICAO-TI   | III |

#### 14.5 Environmental hazards

|                                                           |                                      |
|-----------------------------------------------------------|--------------------------------------|
|                                                           | hazardous to the aquatic environment |
| Environmentally hazardous substance (aquatic environment) | dicopper oxide, granulated copper    |

#### 14.6 Special precautions for user

There is no additional information.

#### 14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

No data available.

# Safety Data Sheet

## Ultraweld Cast Iron Weld Metal

Version number: 7.0

Revision: 2022-03-09

### International Maritime Dangerous Goods Code (IMDG) - additional information

Marine pollutant yes (hazardous to the aquatic environment) (DiCopper oxide)

Danger label(s) 9, fish and tree

Special provisions (SP) 274, 335, 966, 967, 969

Excepted quantities (EQ) E1

Limited quantities (LQ) 5 kg

EmS F-A, S-F

Stowage category A

### International Civil Aviation Organization (ICAO-IATA/DGR) - additional information

Environmental hazards yes (hazardous to the aquatic environment)

Danger label(s) 9, fish and tree

Special provisions (SP) A97, A158, A179, A197, A215

Excepted quantities (EQ) E1

Limited quantities (LQ) 30 kg

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations specific for the product in question

#### National regulations (United States)

**Toxic Substance Control Act (TSCA)** all ingredients are listed

#### Superfund Amendment and Reauthorization Act (SARA TITLE III )

- The List of Extremely Hazardous Substances and Their Threshold Planning Quantities (EPCRA Section 302, 304)

none of the ingredients are listed

- Specific Toxic Chemical Listings (EPCRA Section 313)

| Toxics Release Inventory: Specific Toxic Chemical Listings |           |              |                |
|------------------------------------------------------------|-----------|--------------|----------------|
| Name of substance                                          | CAS No    | Remarks      | Effective date |
| Copper Powder                                              | 7440-50-8 |              | 1987-01-01     |
| aluminium powder (stabilised)                              | 7429-90-5 | fume or dust | 1987-01-01     |

#### Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

- List of Hazardous Substances and Reportable Quantities (CERCLA section 102a) (40 CFR 302.4)

| Name of substance | CAS No    | Remarks | Statutory code | Final RQ pounds (Kg) |
|-------------------|-----------|---------|----------------|----------------------|
| Copper Powder     | 7440-50-8 | [4]     | 2              | 5000 (2270)          |

#### Legend

2 "2" indicates that the source is section 307(a) of the Clean Water Act

[4] No reporting of releases of this hazardous substance is required if the diameter of the pieces of the solid metal released is larger than 100 micrometers (0.004 inches).

Version number: 7.0

Revision: 2022-03-09

| Abbr.          | Descriptions of used abbreviations                                                                                                                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| IMDG           | International Maritime Dangerous Goods Code                                                                                                       |
| IMDG-Code      | International Maritime Dangerous Goods Code                                                                                                       |
| LC50           | Lethal Concentration 50%: the LC50 corresponds to the concentration of a tested substance causing 50 % lethality during a specified time interval |
| LD50           | Lethal Dose 50 %: the LD50 corresponds to the dose of a tested substance causing 50 % lethality during a specified time interval                  |
| LHS            | Lower hazard substance                                                                                                                            |
| MARPOL         | International Convention for the Prevention of Pollution from Ships (abbr. of "Marine Pollutant")                                                 |
| NFPA®          | National Fire Protection Association (United States)                                                                                              |
| NOEC           | No Observed Effect Concentration                                                                                                                  |
| NPCA-HMIS® III | National Paint and Coatings Association: Hazardous Materials Identification System - HMIS® III, Third Edition                                     |
| OSHA           | Occupational Safety and Health Administration (United States)                                                                                     |
| PBT            | Persistent, Bioaccumulative and Toxic                                                                                                             |
| PEL            | Permissible exposure limit                                                                                                                        |
| PNEC           | Predicted No-Effect Concentration                                                                                                                 |
| ppm            | Parts per million                                                                                                                                 |
| RTECS          | Registry of Toxic Effects of Chemical Substances (database of NIOSH with toxicological information)                                               |
| STEL           | Short-term exposure limit                                                                                                                         |
| TLV®           | Threshold Limit Values                                                                                                                            |
| TWA            | Time-weighted average                                                                                                                             |
| vPvB           | Very Persistent and very Bioaccumulative                                                                                                          |
| Water-react.   | Material which, in contact with water, emits flammable gases                                                                                      |

### Key literature references and sources for data

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200.

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for the air transport (IATA).

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.

Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

### List of relevant phrases (code and full text as stated in section 2 and 3)

| Code | Text                                          |
|------|-----------------------------------------------|
| H228 | Flammable solid.                              |
| H261 | In contact with water releases flammable gas. |
| H302 | Harmful if swallowed.                         |
| H318 | Causes serious eye damage.                    |
| H331 | Toxic if inhaled.                             |
| H332 | Harmful if inhaled.                           |
