

# ***ULTRAWELD*** **nuw** **TUBE™**

**Another great addition to Harger's Ultraweld family!**

Unique

•

Innovative

•

Cost Effective

# Advantages

New Ultraweld packaging keeps weld materials separate

## Dual Chamber Design

- Holds starting material and weld metal *separately*, in the same tube
- Easy to identify with color coded caps
  - Clear** = Weld Metal
  - Orange** = Starting Material

## Reliable Connections

- Shots are no longer rendered ineffective due to the intermixing of the materials

## Saves Money

- Less product waste

## Eco-friendly, recyclable outer packaging

- Available in all weld metal sizes, NUWTube15 through NUWTube250
- Easy to use, less waste, better connections
